

## CLOSED CELL

### NEOPRENE SCE41 SOFT

Weather-proofing, air, dust and moisture seal. Reduces sound and vibration

### NEOPRENE SCE 43 FIRM

Weather-proofing, gasketing, sound proofing, surface protectors, construction

### NEOPRENE SCE 45 EXTRA FIRM

Weather-proofing, gasketing, sound proofing, surface protectors, construction

### EPICHLOROHYDRIN (ECH)

Used for high temperatures. Ozone and UV resistant

### EPDM

Heat, Ozone and UV resistant. -70F to 220F.

### NEOPRENE (CR)

High tensile strength. Oxygen, ozone, oil and flame resistant

### PVC LOW/MED/ HIGH

Foam, UV and moisture resistant. Also resistant to many solvents and fuels

### PVC/NBR

Ozone, fuel and abrasion resistant

### PVC/NBR/CR

Insulation, seals floor matting and acoustic / sound control, athletic padding, and appliances

### CROSS-LINKED POLYETHYLENE (XLPE)

Chemical, Oil and UV resistant, gasketing, sound dampening, acoustic and vibration absorption

### CORK/RUBBER

Gaskets, Tape, absorption padding, anti-skid

### SILICONE SPONGE

High temperature, ozone, oil and UV resistance, spacers

## OPEN CELL

### POLYURETHANE ETHER

Dust and light seal, furniture padding, packaging material, weather stripping

### POLYURETHANE ESTER

Dust and sound absorption, (available as convoluted foam), weather stripping

### POLYURETHANE MICROCELLULAR (PORON®)

UV resistant, 100% recovery

### RETICULATED FOAM

Filter foam, dust collector

### OPEN CELL SPONGE

Gaskets, shock absorber, cushioning, sound & vibration dampening

### GLAZING TAPE

Use for window seals, bonds glass or metal surfaces

### DOUBLE-SIDED FOAM TAPE

General application adhesive

### NEOPRENE/ NYLON JERSEY

Fabrics laminated to foam

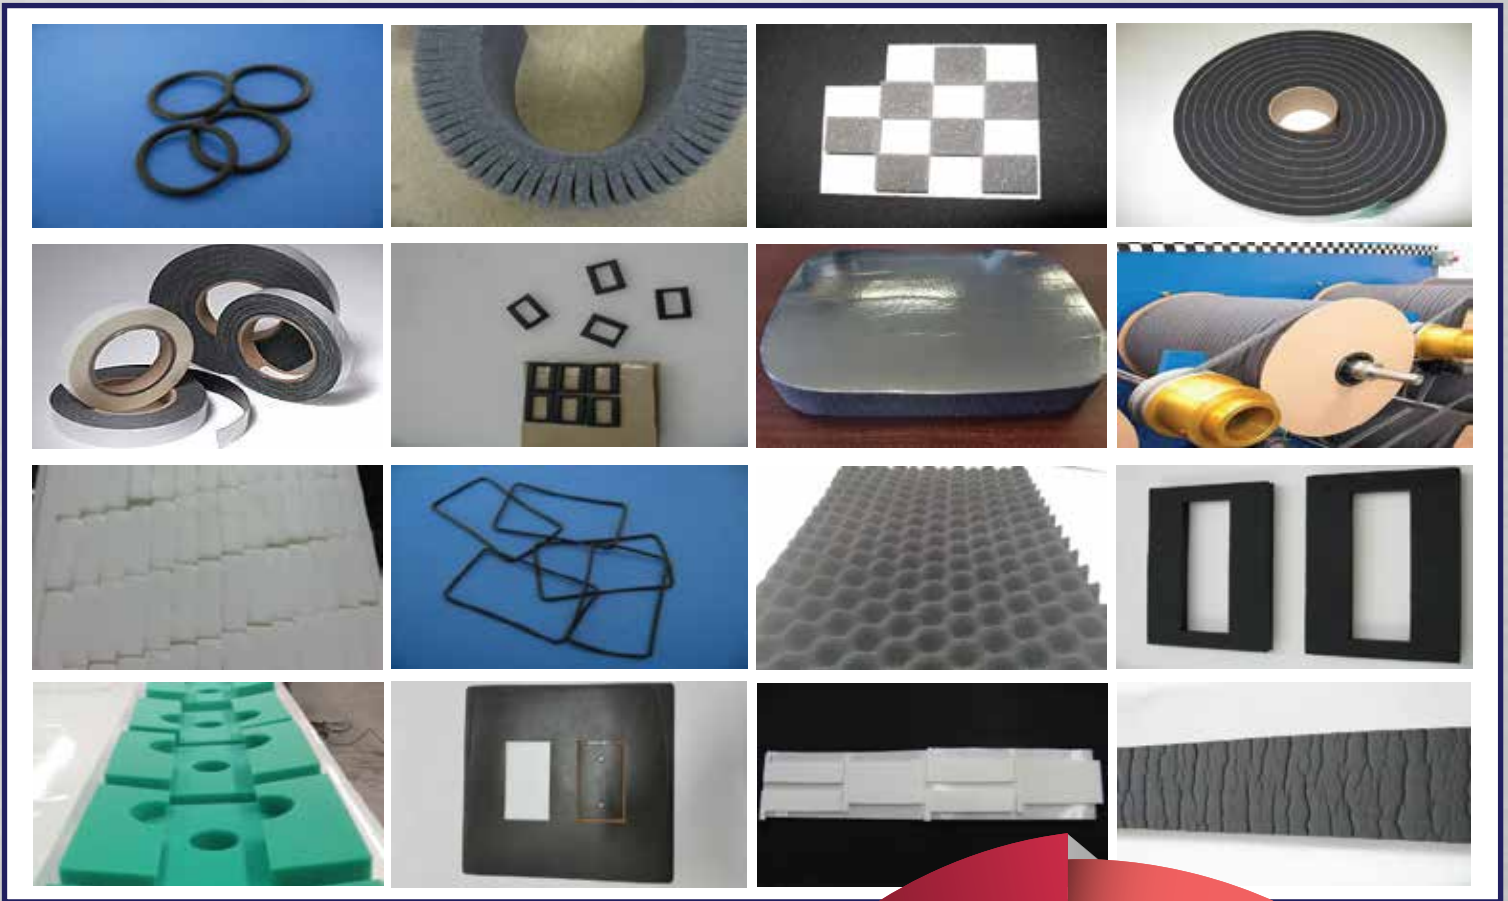

## OTHER

*This is just a small sample of the materials we carry.*

At Premier Gaskets, we take pride in servicing the various industries we have had the opportunity to work with:

- ACOUSTIC SYSTEMS
- ATHLETIC & LEISURE
- CONSTRUCTION
- CONSUMER ELECTRONICS
- FURNITURE
- HVAC
- MEDICAL
- PACKAGING
- TRANSPORTATION

## Premier Gaskets Inc.

fabricates, die cuts and slits products for all industries from a vast selection of non-metallic materials, including sponge, felt, cork, plastic and foam, in accordance with commercial specifications. We specialize in products laminated with pressure sensitive adhesives.

We strive to accommodate a wide range of customer needs, specializing in high speed, high volume production.
